GDX Gateway for Housing Central™

The GDX Gateway provides **secure connection** for GDX Door Entry Systems and facilitates near **real-time reporting** of on-site events via the GDX Line Card (situated in the CCU). Existing GDX systems are interfaced seamlessly by utilising the CAN bus input or VOIP connection for existing GDX.Net system connections.

Deployment options:

- With **existing customer internet** connection.
- As a **Comelit-PAC-configured mobile router**, offering 4G connectivity to Housing Central.

Part Number(s)	**GDX-MGT-GW-IP-MNT** Management: GDX Gateway - IP with mounting plate
Supplied with	1 × Power connector 1 × CAN connector
Power Input	12VDC @ 3A, 36W
Network Features	1 × LAN 1000Mbps network (Eth1) 1 × WAN 100Mbps network (Eth2)
Audio / Visual Indicators	1 × status LED • AMBER solid light: System booting up • GREEN solid light: System ready
Security	Hardware protection against unauthorised boot from external storage Secure authenticated connection with Housing Central cloud
Dimensions	112 (w) × 25 (h) × 84 (d) mm
Weight	450 g
Enclosure Material	Aluminium housing
Operating Temperature	0°C to +60°C / 32°F to 140°F
Relative Humidity	10% to 90% Relative Humidity
Mean Time to Failure	> 200,000 hours
Warranty	5 years against electronic failure (from manufacturer)
Standards Compliance	See manufacturer website https://www.compulab.com/
Country of Origin	Assembled in UK
