PAC System Management - CSL Routers with SIM

The CSL Router provides connection to the internet over secure VPN. It will also replace our current on-premises PSTN\GSM modem connections from a PAC access software PC to 500 series door controllers via PAC IP Modems.

- Provides an encrypted connection to the internet.
- Replaces PSTN/GSM connectivity from PC
- Implemented over broadband with SIM fail over contingency
- Arrives pre-configured for quick installation.
- Supplied with the appropriate monthly data SIM bundle to help manage costs.
- CSL @ PAC configuration is specific to PAC systems.

All PAC modem kits

Part Number(s)	**PAC-MGT-RT-SIM-5GB** – Management: CSL Router with SIM, 5GB data **PAC-MGT-RT-SIM-2GB** – Management: CSL Router with SIM, 2GB data **PAC-MGT-RT-SIM-1GB** – Management: CSL Router with SIM, 1GB data
Power input(s)	12V DC @ 0.5A *(supplied with plug-in 12V DC power cable)*
Radio Technology	4G/3G
Aerial Connections	1 LTE SMA male (included)
Visual Indicators	1 × Power LED 1 × SIM status LED 2 × Signal strength indicator LEDs
Dimensions	120 (w) x 45 (h) x120 (d) mm / 4.72 (w) x 1.77 (h) x 4.72 (d) in.
Weight (boxed)	0.8 kg / 1.8 lb
Operating Temperature	-40°C to +70°C / -40°F to 158°F
Warranty	1 year manufacturer's warranty
Standards Compliance	UKCA, CE, RoHS, WEEE
Environment	Internal use only
