# Overview of Audio Handset

*Above image shows video version of 3-button handset*

With this handset you can:
Talk to your visitor.
Make a Concierge call (if the service is enabled)
Use privacy mode so you are not disturbed.
Open the main door to your building.

## Answer a Call

When the handset rings, the **bell** button will light up green.

Lift the handset to talk to your caller.

Press the **Enter** button to open the building door and replace the handset. The enter button will flash for a short period to indicate the door is unlocked.

# Controls

Button	Description
<div><div>Privacy</div><div></div><div>GREEN</div></div>	<p><b>Privacy button</b></p> <p>When your phone is ringing pick up your handset to answer the caller.</p> <p><b>If the phone is "off the hook" it will not ring.</b></p>
